

# OUR JOURNEY TO ENLIGHTENMENT

## MAY 2012

### *Prior Month*

Since we were receiving many emails about the spirit and the anointing, we published a series of articles on the Divine Relationships to help our readers understand the various spirit influences that converge to assist mankind.

While we were having a good bit of success in helping our brothers understand that they should all be reaching out for the heavenly hope, there were many who wrote us to tell us that we were wrong about the so-called “earthly hope.” So we took this opportunity to lay out just what the so-called “earthly hope” as taught by the Watchtower organization really looks like. It was a shocking wake up call to many!

Again, we published open letters we sent to the Governing Body letting them know what we are doing, and encouraging their response.

We concluded the month with a series of articles that highlights many scriptures that speak about the heavens and contemplates what we might expect in the heavenly career. This series received tremendous support and continues to stir the imagination in seek of the incomprehensible gift awaiting those who love God! Later in our ministry, we used this series of article to conduct Bible classes in our IRL ministry to introduce non-Witnesses to the heavenly hope.
