

The Christian Ministry Recipe

This recipe was handed down through many generations; in fact it is around 2,000 years old. For such a delectable meal to have lasted so long there would have occurred many alterations, and even unhealthy additions, distorting the true nourishment. Fortunately we are able to pass on the original and authentic recipe for all who wish to enjoy a healthy and hearty meal.

Preparation:

As always, preparation tips are necessary for any culture so please bear with us as we expound the benefits.

1. A notable cause of food poisoning occurs through cross contamination, which include crossing prophecy with plain and open teachings, crossing the 'old wine' of the Jewish system with the 'new wine' of Jesus of Nazareth. This causes vision to become clouded, and unable to discern truth.
2. Frozen food may go rancid if there are high levels of fat, becoming smelly and unfit for consumption. Things will not make sense in our minds spiritually if it does not pass 'the smell test'.
3. Check for out of date products, that which is being taught should fit the 21st century, there should be no customs and traditions that belong in the dark ages.
4. Make sure there is no staleness in the food, teachings that were once for a generation long gone, like the 'old wine'.
5. Be alert for slimy products that are also unfit for human consumption, underhanded and deceitful practices of religious men and discard them.
6. Strain out the bland boring topics which are constantly repeated, stifling spiritual growth.
7. Undercooked food is dangerous to health, so ideas and concepts will not develop in the heart of the listener.
8. Overcooked is also a hazard as a reader will not develop their own thoughts, becoming slothful, easily relying on others to make up their mind.
9. To test when the recipe is cooked and ready, make sure it bounces back lightly. The yoke of Jesus is kind, loving and light, not hard to bear, not weighing us with guilt.
10. And finally do not over season with additives of men which distort the pure teachings of Jesus.

Cooking time:

"To infinity and beyond"

Temperature:

Serve hot, as lukewarm attitudes will hinder progress on the journey to our Heavenly Father.

Servings:

Unlimited to mankind, past, present and future

Ingredients:

- 3 cups of the plain and open teachings of Jesus
- 1 cup of truth
- 1 cup of goodness
- 1 cup of beauty
- 2 pounds (kilograms) of the Spirit of Truth
- 2 pounds (kilograms) of God's indwelling spirit

Method:

Take a sturdy bowl labelled the plain and open teachings of Jesus; add the wonderful aspects of truth, goodness and beauty one at a time to ensure the free flow of these healthy products, to enlighten our outlook on life, our brotherhood and our Father.

Add God's indwelling gift of spirit and stir vigorously, allowing the ingredients to mix thoroughly until fully absorbed in understanding.

Next add the Spirit of Truth, slowing blending together, smooth out any lumps, ones that are impregnated in the mind from past archaic teachings and look at this mixture with a pure heart.

Place in a circular tin to evenly distribute heat, helping to balance our adjustment to all things heavenly, not of the flesh.

When cooked, take out and enjoy this authentic, tried and tested recipe that will continue to inspire generations of willing people.

Please note:

The wrong ingredients restrict the inspiration and true religion of Jesus Christ which will live long and fresh in the minds and hearts of all people uplifting the inhabitants of this planet and bring an end to the dispersion of peace and liberty.
